**Job Description**

The Department of Crop, Soil, and Environmental Sciences in the College of Agriculture at Auburn University is seeking applications for the position of Assistant Professor - Environmental Systems. This position will be a nine-month, tenure-track position with 60% research and a 40% teaching appointment. The projected start date is August 2024.

**Responsibilities:** The successful candidate will be expected to develop a dynamic, impactful, and innovative research program focused on understanding and managing problems arising from land management practices that affect surface waters, particularly reservoirs. The successful candidate will work with federal, regional, and state agencies that address aquatic issues. The candidate will use innovative technologies in any of a variety of disciplines, including but not limited to biogeochemistry, ecohydrology, ecology, or remote sensing, to study the impact of land use on water quality.

Teaching responsibilities are 9-10 hours of course credit per academic year, including an introductory level course in environmental science, an upper-level course 'Reservoirs and Land Use' or
