Biology/Life Science, Agricultural Sciences

Department: 60100000 - AG-MICROBIOLOGY / CELL SCI

Job Description

The [Institute of Food and Agricultural Sciences](#) is creating an environment that affirms community across all dimensions. We particularly welcome applicants who can contribute to such an environment through their scholarship, teaching, mentoring, and professional service. If an accommodation due to a disability is needed to apply for this position, please call 352-392-2477 or the Florida Relay System at 800-955-8771 (TDD) or visit [Accessibility at UF](#) .

This is a 9 month tenure-accruing position that will be 30% teaching (College of Agricultural and Life Sciences) and 70% research (Florida Agricultural Experiment Station), available in the Microbiology and Cell Science Department, Institute of Food and Agricultural Sciences, at the University of Florida. This assignment may change in accordance with the needs of the unit. Duties will include teaching microbial genetics courses at the undergraduate and graduate levels, training Ph.D. students, and maintaining an externally funded and productive research program in the area of microbial genetics. Tenure will accrue in the Department of Microbiology and Cell Science. The faculty member will seek contract and grant funding to actively support their program. The faculty member will engage in Extension activities in their program area.

The successful candidate will engage in scholarly activities related to instruction, including teaching undergraduate and/or graduate courses, advising and mentoring undergraduate and graduate students, participating in curriculum revision and enhancement, seeking funding for the teaching program, supervising undergraduate and graduate research and creative work, publishing teaching-related scholarship, producing learning tools, and engaging in professional development activities related to teaching and advising. Faculty are encouraged to support and participate in the CALS Honors Program, distance education, and international education.

Because of the IFAS land-grant mission, all faculty are expected to be supportive of and engaged in all three mission areas-Research, Teaching and Extension-regardless of the assignment split specified in the position description.

Background Information:

The [University of Florida](#) is a Land-Grant, Sea-Grant, and Space-Grant institution, encompassing virtually all academic and professional disciplines, with an enrollment of more than 56,000 students. UF

is a member of The Association of American Universities. The [Institute of Food and Agricultural Sciences](#) includes the [College of Agricultural and Life Sciences](#), the [Florida Agricultural Experiment Station](#), the [Florida Cooperative Extension Service](#), the [College of Veterinary Medicine](#), the [Florida Sea Grant](#) program, and encompasses 16 on-campus academic departments and schools, 12 Research and Educational Centers (REC) located throughout the state, 6 Research sites/demonstration units administered by RECs or academic departments, and Florida Cooperative Extension Service offices in all 67 counties (counties operate and maintain). The School of Natural Resources and Environment is an interdisciplinary unit housed in IFAS and managed by several colleges on campus. UF/IFAS employs nearly 4,500 people, which includes approximately 990 salaried faculty and 1,400 permanent support personnel located in Gainesville and throughout the state. IFAS, one of the nation's largest agricultural and natural resources research and education organizations, is administered by a Vice President and four deans: the Dean of the College of Agricultural and Life Sciences, the Dean for Extension and Director of the Florida Cooperative Extension Service, the Dean for Research and Director of the Florida Agricultural Experiment Station, and the Dean for the College of Veterinary Medicine. UF/IFAS also engages in cooperative work with Florida A&M University in Tallahassee.

The Microbiology and Cell Science Department has 27 tenured or tenure-track faculty, 6 lecturers, 60 PhD students, 700 MS students, and 1,000 undergraduate students. The Department has a broad portfolio of external funding sources including NIH, NSF, USDA, NASA, DoD, DOE, JDRF, CRDF, and many more. The Department has a strong commitment to computational and bioinformatics training that is crucial for our graduates to be blue chip recruits for positions in the life sciences. We have close partnerships with Miami Dade College, Indian River State College, and Valencia College. Our students include both residential and distance students at the B.S., M.S., and Ph.D. levels.

Expected Salary:

Commensurate with Education and Experience

Minimum Requirements:

A doctorate (foreign equivalent acceptable) in microbial genetics or a closely related discipline is required. Candidates should have demonstrated skills in verbal and written communication, interpersonal relationships, and procurement of extramural funding. Candidates must be supportive of the mission of the Land-Grant system. Candidates must also have a commitment to [UF core values](#) of excellence, discovery & innovation, inclusion, freedom & civility, community, and stewardship. Postdoctoral experience required. Experience in publishing original research in the peer-reviewed literature also required.
