based on the performance. Preference will be given to a candidate who: (1) has an interest in developing sensor monitoring technology, and experience in computer programming and IoT, (2) likes field work and is interested in learning about the field data collection and processing, (3) has strong working ethic, and (4) will enjoy working with faculty/students from multiple disciplines.

Interested candidates should contact Dr. Younsuk Dong at dongyoun@msu.edu by emailing a letter of interest and your CV/resume. Review of applications will begin immediately and continue until the position is filled. Interested candidates may contact Dr. Dong with any questions regarding this position.
