days and agent training, and presenting research results to growers. The initial contract period of this project will be through 9/30/22 and continuation is contingent upon future funding.

Primary Function of Organizational Unit

Cooperative Extension at N.C. A&T helps people across the state lead better lives by finding solutions to their problems. We deliver educational programs and technology to enrich the lives, the land and the economy of North Carolina's limited-resource individuals, families and communities.

Cooperative Extension is unique in structure and function. Through the expertise of specialists, associates and county-based agents, Extension is the outreach arm of the University and its College of Agriculture and Environmental Sciences. Our programs are developed here at the campus level and then delivered to people through our 101 Cooperative Extension centers across the state.
