Job Description

Program Priority Areas: Home Grounds, Gardens & Home Pests

Geographic Area: Northeast Alabama, serving DeKalb, Cherokee, Marshall, Etowah, Blount Cullman, Madison, and Jackson counties. *This position will be housed in the Marshall County Extension Office in Guntersville, Alabama.

Responsibilities: Programming from this team is diverse, covering training opportunities for green industry professionals, and for non-commercial gardeners/homeowners. Green industry programs can include athletic field management, pesticide safety training, and irrigation. Non-commercial horticulture can include backyard fruit, nut and vegetable culture, lawn and ornamental installation and maintenance, water quality, waste management, and pest management. All of these must promote best management practices and the appropriate use of all pest management products.

The REA will utilize all available technologies in their educational outreach as well as more traditional methods such as newsletters and workshops & group meetings. Related to non-commercial horticulture, the Master Gardener volunteer program is a responsibility of this team. REA's coordinate volunteer training classes and guide volunteer efforts in public outreach. Designing and participating in applied research/demonstration with other agents and Specialists benefits both green industry and non-commercial audiences. All REAs are expected to support the team's program impact evaluations each year. All REAs are expected to participate in regional and state horticulture associations, developing their reputation as educational leaders with the Alabama Cooperative Extension System.

Team Descriptions: The Home Grounds team includes Regional Extension Agents (REAs), Urban Regional Extension Agents (UREAs), County Extension Coordinators (CECs), and Extension Specialists.

The REA will participate as a cohesive team member working with local clientele, advisory groups, volunteers, and other interested parties to determine regional needs for program outreach. As a team member, the REA will partner with other REAs and the region's CECs to provide leadership in planning, implementing, evaluating, and reporting the team's programs conducted in the region.
