Job Description

The department of Crop, Soil, and Environmental Sciences at Auburn University is seeking a candidate for the position of Post-Doctoral Fellow. This is a benefits eligible, non-tenure track position. The appointment is for an initial period of two years, with the possibility of renewal up to a maximum of a four year period depending on performance and funding availability.

The individual selected for this position will work in environmental nutrient management with a focus on understanding nutrient mineralization of animal manures, as well as their fate and transport in the environment. Responsibilities include, but are not limited to the following:

- 1) Conducting laboratory, greenhouse, and field experiments on manure mineralization; 2) operation of analytical instruments such as ICP-AES, Ion chromatography (IC), and UV-VIS, including quality control and quality assurance; 3) management and organization of data; 4) supervision of graduate students and undergraduate student workers; and 5) dissemination of research findings through
