**Job Description** 

### Job Summary

The School of Agriculture and Applied Sciences is seeking to hire a postdoctoral research associate who has recently been awarded a Ph.D. The incumbent will conduct team and independent research to evaluate native bees as pollinators of small fruits on small farms in Mississippi.

The postdoctoral research associate will work under the direction of scientists from Alcorn State University Demonstration Farm (Demo Farm) in Mound Bayou, MS and the USDA Agricultural Research Service (USDA ARS) in Stoneville, MS. The duration of this appointment is for 12 months that can be extended for 6 more months depending on the performance and availability of funds. The point of work for this position is the Demo Farm; however, some laboratory work will be conducted at the USDA ARS cooperator's laboratory.
