Job Description

The Asian School of the Environment (ASE) at Nanyang Technological University is an interdisciplinary school that aims to be a world leader in environmental research focused on Asian environmental challenges. The ASE integrates earth and environmental life science, ecology, engineering and technology, human ecology, humanities, and the social sciences to address key issues of the environment and sustainability.

ASE is hiring a postdoctoral research fellow to lead a new, Nparks-funded project entitled: "Comparison of litterfall nutrient cycling between forests and urban green spaces in Singapore". The
