University of California, Davis is recruiting an Assistant Professor of Animal Genetics. This is an academic year (9-month), tenure track Assistant Professor position that includes an appointment in the California Agricultural Experiment Station (AES). Faculty members who hold an Agricultural Experiment Station appointment have a responsibility to conduct research and outreach relevant to the mission of the California Agricultural Experiment Station. Participation in outreach programs and performance of university service are also expected.

The appointee is expected to establish a competitively funded research program in Animal Genetics to address critical and emerging issues in the genetic improvement of food animal populations. We seek candidates who will leverage emerging methods and technologies, which may include genome editing, multi-omics approaches, novel quantitative genetic methods, stem cell biology, or reproductive biology, and integrate these with classical genetic improvement approaches to achieve this objective. Typical teaching loads are 2.5 courses per year, on average, determined in consultation with the Department Chair. The appointee will teach one large course per year in animal genetics (Animal Genetics & Breeding, ANG 107) and another specialized course in the candidate's area of expertise (e.g., ANS123, ANS133). The appointee will contribute to graduate student mentoring and teaching. Participation in and development of public outreach and/or community engagement programs, and performance of departmental and university service is expected. Applicants are expected to develop strategies for connecting novel information on the animal genetics of their species of interest to applied research that ultimately benefits stakeholders. This position is expected to collaborate with Cooperative Extension specialists and advisors, partners in allied industries or other appropriate public stakeholders.

This recruitment is conducted at the assistant rank. The resulting hire will be at the assistant rank, regardless of the proposed appointee's qualifications.

Initial review of applications will be conducted using anonymized versions of the Statement of Research and Future Research Plans and the Statement of Contributions to Diversity, Equity, and Inclusion. Applications demonstrating sufficient potential based on this review will be advanced to full review.

The University of California is committed to creating and maintaining a community dedicated to the advancement, application, and transmission of knowledge and creative endeavors through academic excellence, where all individuals who participate in University programs and activities can work and learn together in a safe and secure environment, free of violence, harassment, discrimination, exploitation, or intimidation. With this commitment, UC Davis conducts a reference check on all first-choice candidates for Academic Senate Assistant Professor, Steps 4, 5, or 6 through Professor, Assistant Professor of Teaching, Steps 4, 5, or 6 through Professor of Teaching, and Acting Professor of Law through Professor of Law positions. The reference check involves contacting the administration

of the applicant's previous institution(s) to ask whether there have been substantiated findings of misconduct that would violate the University's Faculty Code of Conduct. To implement this process, UC Davis requires all applicants for any open search for these faculty positions to complete, sign, and upload the form entitled "Authorization to Release Information" into UC RECRUIT as part of their application. If an applicant does not include the signed authorization with the application materials, the application will be considered incomplete, and as with any incomplete application, will not receive further consideration. Although all applicants for faculty recruitments must complete the entire application, only finalists considered for these faculty positions will be subject to reference checks.

UC Davis supports Family-friendly recruitments. UC Davis covers travel expenses for a second person to accompany an invited faculty recruitment candidate who is a mother (or single parent of either gender) of a breast or bottle-feeding child less than two years of age.

UC Davis recognizes the necessity of supporting faculty with efforts to integrate work, family and other work-life considerations. To recruit and retain the best faculty, the campus sponsors a Work Life Program that provides programs and services that support faculty as they strive to honor their commitments to work, home and community.
