**Position Overview:**

The salary range for this position is \$102,200 - \$125,400 (annual). "Off-scale salaries" and other components of pay, i.e., a salary that is higher than the published system-wide salary at the designated rank and step, are offered when necessary to meet competitive conditions, qualifications, and experience.

The Department of Animal Science in the College of Agricultural and Environmental Sciences at the University of California, Davis is recruiting an Assistant Professor of Poultry Science with a preferred emphasis in immunology, nutrition, genetics or physiology. This is an academic year (9-month), tenure track Assistant Professor position that includes an appointment in the California Agricultural Experiment Station (AES). Faculty members who hold an Agricultural Experiment Station appointment have a responsibility to conduct research and outreach relevant to the mission of the California Agricultural Experiment Station. Participation in outreach programs and performance of university service are also expected.

The appointee is expected to establish a competitively funded research program in Poultry Science to address critical or emerging issues in poultry production, health, and well-being by applying cutting-edge and innovative strategies. We seek candidates who can utilize innovative approaches and leverage cutting-edge technologies, such as single-cell sequencing, genome-wide CRISPR screens, genome-editing, or artificial intelligence and machine learning to explore and elucidate the underlying mechanisms of biological processes that impact poultry at the cellular, tissue, and organism levels. Typical teaching loads are 2.5 courses per year, on average, determined in consultation with the Department Chair. The appointee will teach avian related courses (e.g. AVS103, AVS150, AVS121, or ANS143) and a large undergraduate course in Animal Science (e.g. ANS 123) related to their expertise. The appointee will contribute to graduate student mentoring and teaching. Participation in and development of public outreach and/or community engagement programs, and performance of departmental and university service is expected. Applicants are expected to develop strategies for connecting novel information on the poultry science of their species of interest to applied research that ultimately benefits stakeholders. This position is expected to collaborate with Cooperative Extension specialists and advisors, partners in allied industries or other appropriate public stakeholders.

This recruitment is conducted at the assistant rank. The resulting hire will be at the assistant rank, regardless of the proposed appointee's qualifications.

Initial review of applications will be conducted using anonymized versions of the Statement of Research and Future Research Plans and the Statement of Contributions to Diversity, Equity, and Inclusion. Applications demonstrating sufficient potential based on this review will be advanced to full review.

1. Full-time Equivalent (FTE)

This position will be recruited at the Assistant Professor rank. This is a tenure-track academic year (9-month) position.

1. Availability of Space and Resources

Office and laboratory space will be provided by the Department of Animal Science on the UC Davis central campus. Faculty share administrative, accounting, and clerical staff. In addition to laboratory and animal resources on central campus, our faculty have access to UC Agriculture and Natural Resources (ANR) research and extension centers (REC), the UC Davis Bodega Marine Laboratory, and UC Davis core facilities.

Start-up funding will be provided based on the programmatic needs of the successful candidate.

The University of California is committed to creating and maintaining a community dedicated to the advancement, application, and transmission of knowledge and creative endeavors through academic excellence, where all individuals who participate in University programs and activities can work and learn together in a safe and secure environment, free of violence, harassment, discrimination, exploitation, or intimidation. With this commitment, UC Davis conducts a reference check on all first-choice candidates for Academic Senate Assistant Professor, Steps 4, 5, or 6 through Professor, Assistant Professor of Teaching, Steps 4, 5, or 6 through Professor of Teaching, and Acting Professor of Law through Professor of Law positions. The reference check involves contacting the administration of the applicant's previous institution(s) to ask whether there have been substantiated findings of misconduct that would violate the University's Faculty Code of Conduct. To implement this process, UC Davis requires all applicants for any open search for these faculty positions to complete, sign, and upload the form entitled "Authorization to Release Information" into UC RECRUIT as part of their application. If an applicant does not include the signed authorization with the application materials, the application will be considered incomplete, and as with any incomplete application, will not receive further consideration. Although all applicants for faculty recruitments must complete the entire application, only finalists considered for these faculty positions will be subject to reference checks.
