sustainable landscaping solutions, and climate-resilient plants in general. This individual will have the opportunity to collaborate with students and faculty across the Horticulture program towards the hands-on development of innovative landscape design pedagogy to facilitate students to acquire skills in designing. Candidates are expected to possess theoretical understanding and modern practical experience in using different teaching methods including but not limited to: Auto CAD and/or 3-dimensional (SketchUP, Enscape or Lumion etc. design skills in the planning, design implementation and management of high-performance landscape strategies and sustainable horticulture tactics suitable for the arid region. These include but are not limited to green infrastructure, environmental remediation, ecological resilience, and urban ecology and knowledgeable about soil and water management tools and technologies. The selected candidate will fill a permanent position (teaching, research and community service). Primary responsibilities will be teaching lecture and handle practical classes in landscape plants/garden design in the undergraduate Environmental Horticulture Design concentration

Minimum Qualification

The applicants should have Minimum Ph.D. in horticulture (ornamental/landscape design), or a closely related discipline from a distinguished international university and Post-doctoral experience.

Preferred Qualification

Proficiency in communication, leadership, and networking to facilitate effective collaboration. • Commitment to upholding elevated standards in teaching (in English) and student mentorship. • Proven dedication to fostering diversity and adeptness in interdisciplinary collaboration within the agricultural domain. • Demonstrated track record of published works in the realm of landscape design/ science. • Teaching experience in relevant areas • Good h-index according to Scopus ranking. • Demonstrated ability to attract internal and external grants.

Expected Skills

Assistant / Associate Professor in Integrative Agriculture -
