Job Description	

Job Summary

The individual selected for this position will assist in social science research and the dissemination of social science research findings. The Research Assistant/Associate manages research projects and corresponds with the research team. The individual also participates in all facets of the research process—from project design to data collection to data analyzation to writing up of results and publications to publicly disseminating the research through research and Extension talks. This is a 2-year limited-term appointment and is funded from external sources. Continuation of employment is contingent upon availability of funds and skills required, as well as performance.

The University: Auburn was named by Forbes Magazine as one of the state of Alabama's best employers, with employees staying an average of ten years! Learn more about Auburn's impact, generous employee benefits, and thriving community by visiting aub.ie/working-for-auburn.

The Community: The Auburn/Opelika area is a page right out of Southern Living magazine with an idyllic small-town feel, perfecting a unique balance between a close-knit community and driving consistent growth and development. Paralleling the growth of Auburn University, the Auburn/Opelika area boasts services and amenities that cater to any interest. We're proud of our top school systems, city services, award-winning restaurants, and the infectious spirit of life in a college town. You can find us nestled halfway between the beach and the mountains in a lower-cost-of-living area, two hours outside of Atlanta or Birmingham. If you're new to Auburn, we'd love to introduce you. If you're already acquainted with Auburn, we'll keep it simple: it's time to come home! The City of Auburn website has information on the community and services that can be accessed at:

Essential Functions

Specific responsibilities include the following:

- Manages research team projects using management software and keeps the team on task and on time through project oversight. Gives direction to team members, including postdoctoral fellows, graduate students, and undergraduate students. Trains research team members (graduate students, undergraduate students, and postdoctoral fellows) as needed for research activities.
- Schedules research team meetings and data collection activities, interacting with both internal individuals (faculty, research team members, and University staff) and external individuals (farmers, rural dwellers, business owners, etc.). Keeps impeccable records of all data collection activities for projects.
- Interviews individuals (farmers, business owners, community members, etc.) and conducts focus groups for qualitative data collection and writes extensive fieldnotes. Interviews will be conducted in off-site locations, including on farms, at businesses, and outdoors. Needs extensive knowledge of production agriculture to elicit quality interviews.
- Codes and analyzes data by conducting both quantitative data analysis using a statistical analysis software (SPSS, STATA, Python or R) and qualitative data analysis using a Qualitative Data Analysis Software (MAXQDA Analytics Pro).
- Designs new research projects, overseeing methodological decisions and applying for grants.
- Serves as a community liaison for community engagement efforts to bolster data collection and data dissemination efforts by interacting with individuals in positions of authority and power, such as elected officials, business owners, and farm organization presidents and Alabama citizens.
- Communicates research findings externally through community Extension presentations, Extension workshops, and research presentations, as well as internally to research team
