Job Description

The Small Fruit Breeding Program at Auburn University is seeking a breeding data curator to support the research activities of a USDA Specialty Crops Research Initiative Program to expand the Rosaceae, Citrus, Vaccinium and Pulse crop databases for big data storage and curation. This curator based at Auburn University will support collecting, curating, and integrating all types of genomics, genetics, and breeding big data into crop-specific databases, and assist with data collection and other breeding activities in the breeding program.

****This is a one year limited term position and is funded from external sources. Continuation of employment is contingent upon availability of funds.****
